

Summary

Title: PROGRAMMER ANALYST

Description:

Cosentino, first world producer of Silestone® quartz surfaces, is a family-owned and wholly Spanish group. Cosentino focuses on the design, production and distribution of surfaces for kitchens and bathrooms from innovative solutions that provide design, brand value to inspire the lives of their clients. The group bases its development on international expansion and an innovative research program, which applies the most advanced technology for obtaining new materials. Cosentino Group is looking for a Programmer Analyst. Functions: Analysing, coding and programming new orders, as well as developing pilot tests of new programmes following the management staff guidelines. Performing the corrective maintenance of the implemented modules and participating in the new implementations. Solving users` incidents with Cosentino`s programs and applications. Carrying out unit testing and collaborating in the integration testing to launch new computer programs. Monitoring transaction processing to assure the data reliability and accuracy. Transferring know-how to other department colleagues. Planning daily tasks and participating in new projects` planning. The ideal candidate should have knowledges of ABAP IV, previous experience of around 3 years and a high level of English.
